**DETAILED ACTION**

***Election/Restrictions***

1. The newly added claims 34 and 35 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as claims 34 and 35 do not read on the elected species A, Figs. 1-3 of applicant' response dated 6/1/2005. Claims 34 and 35 read on non elected species C, fig. 8.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 31,33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I- Claim 31 recites the limitation "the remainder" in lines 4-5. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 31,33 are rejected under 35 U.S.C. 102(b) as being anticipated by van der Heijden 6,220,483.

Van der Heijden discloses a pump for mounting on a receptacle as seen in Figure 1, which comprises a dispenser orifice (10), a pump body (see marked drawing below), the pump body including a spike (40) connected to the remainder of the pump body by bridges of material (22), a moving body (50) being movable relative to the receptacle, including a pushbutton and defining with the pump body a pump chamber (5) of variable volume, the moving body including a skirt (4) defining a passage via which substance present in the chamber is delivered toward the dispensing orifice (col. 4, ll. 37-47), the skirt co-operating with the spike when the pump is at rest to isolate the inside of the skirt from the pump chamber as seen in Figure 1.

***Allowable Subject Matter***

6. Claims 1-30,32 are allowed.

***Response to Arguments***

7. Applicant's arguments filed 5/21/2009 have been fully considered but are moot in view of the new ground(s) or rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
